

LMH Dining Room

Luther Memorial Home (LMH) is a 99-bed skilled nursing facility with 77 private rooms and 11 double rooms. 24-hour Medicare and Medicaid Certified nursing care is provided. We also offer an 18-bed secured dementia unit. LMH is a non-profit corporation owned and operated by area Lutheran Church congregations. We are affiliated with ELCA as a social ministry organization.

Therapy Pool

Luther Memorial Home offers physical, occupational and speech therapy as ordered by a resident's physician. A specialized feature of LMH is a heated therapy pool. A restorative therapy program is provided to help residents enhance and maintain their physical abilities and strength.

An interdisciplinary team, which includes nursing, dietary, activities, social services, therapy, and a resident's primary physician, develop a care plan to assist each resident in meeting and maintaining their highest level of independence. The interdisciplinary team of caregivers regularly reviews the physical and emotional needs of each resident and holds care conferences with residents and their families.

Therapy Room

Resident room

Short-term stays for rehabilitation are offered to those individuals recovering from major illness, surgery, neurological and orthopedic conditions. We provide the same rehab services offered elsewhere under Medicare. When an individual is ready to return home, assistance with discharge planning is provided. Upon returning home, the individual will have the capabilities, knowledge, and confidence to manage their own care with the necessary community support services in place to assist them, if needed.

LMH Reception Area

Mayville is a small town with all the comforts of a big city. Within blocks of LMH are Union Hospital, Meritcare Clinic, and dental and eye care providers. For the resident's convenience, local physicians from Meritcare Clinic in Mayville provide routine visits at Luther Memorial Home. Mental health services are available in-house monthly. Nursing staff are able to contact a resident's physician to update them on changing needs or concerns 24 hours a day.

Activity Room

Additional benefits include transportation to medical appointments in Grand Forks or Fargo in one of our two handicap accessible vans. All residents will be accompanied by a Certified Nursing Assistant. Family is always welcome to ride along to appointments.
