

LMH Chapel

Luther Memorial Home provides a variety of activity programs which include spiritual, social, intellectual, and recreational needs. Activities are provided one-on-one and in groups, depending on the needs of the resident. Mass and Church services are offered weekly in our Chapel. LMH has a Chaplain on staff, as well as a Caring Ministry Team. Our team provides volunteers to help meet the spiritual needs of our residents.

A licensed beautician and barber are provided on site for all hair care needs.

Courtyard

LMH has a 24-hour visiting policy, welcoming family and friends to visit at their convenience. If you care to visit with your family in private or enjoy a meal together, rooms are available. A courtyard is also accessible that includes a 3-season shelter that can accommodate small or large groups.

MLL Dining Area

Meadowlark Lane (MLL), an 18-bed secured dementia unit, was established for residents with Alzheimer's and related illnesses. Meadowlark Lane is a home-like environment that focuses on a person's special needs and abilities. The floor plan is open and allows for safe wandering. Meadowlark Lane includes a secured outdoor courtyard. Specialized programming, a low stimuli environment and trained staff promote an improved quality of life for all who live there.

Sun Center South Corridor

As part of our continuum of care, Luther Memorial Home offers 41 assisted living apartments. Sun Center, Sun Center South and Sun Center East are attached to the nursing home. Amenities include an emergency call system, light housekeeping, and the noon meal. Adult Day Care is also offered, providing nutritional meals with special diet provisions, nursing supervision, administration of medications, personal care and health monitoring. Opportunities for socialization and group activities, along with a private rest area are another benefit to our Adult Day Care program.
